

**Manufacturer** Savage Marine LTD  
**Model** San Remo Chanfer  
**Description** Marine downlight  
**Driver** HS  
**Nominal Power (W)** 10  
**Control Current**  
**Dimming Control** 0-10VDC  
**Product Range** Rianna, Bermondsey  
**Test Date** 4/7/2013

Dimmer Tested Against:	<b>LVOS</b>		
Pass/Fail	Pass		
<b>Best-Fit Power Profile:</b>			
<b>Minimum ON</b>	0	10	
<b>Maximum ON</b>	9.3		
<b>Adjust</b>	100		
<b>Light Output Range (vs. non-dimmed)</b>			
<b>Maximum (Perceived)</b>	98.6%		
<b>Minimum (Perceived)</b>	40.1%		
<b>Minimum (Measured)</b>	16.5%		

**Linearity Curves (Best-fit Power Profile Applied):**

**Observations:**

Some visible level stepping while ramping/fading.

When turned on to low levels, flashes bright momentarily before settling to

appropriate dimmed level.
